# My Historic Environment

- 'Place' as a common starting point
- Accessing information across domains
- Customised views for user communities
- Enabling discovery

King's Manor, York

# My Historic Environment

Where are you interested in?

# My Historic Environment

Simple approach to searches:

- What are you interested in?
- Use a map to select the area
- What are you interested in?
- Add any search terms....

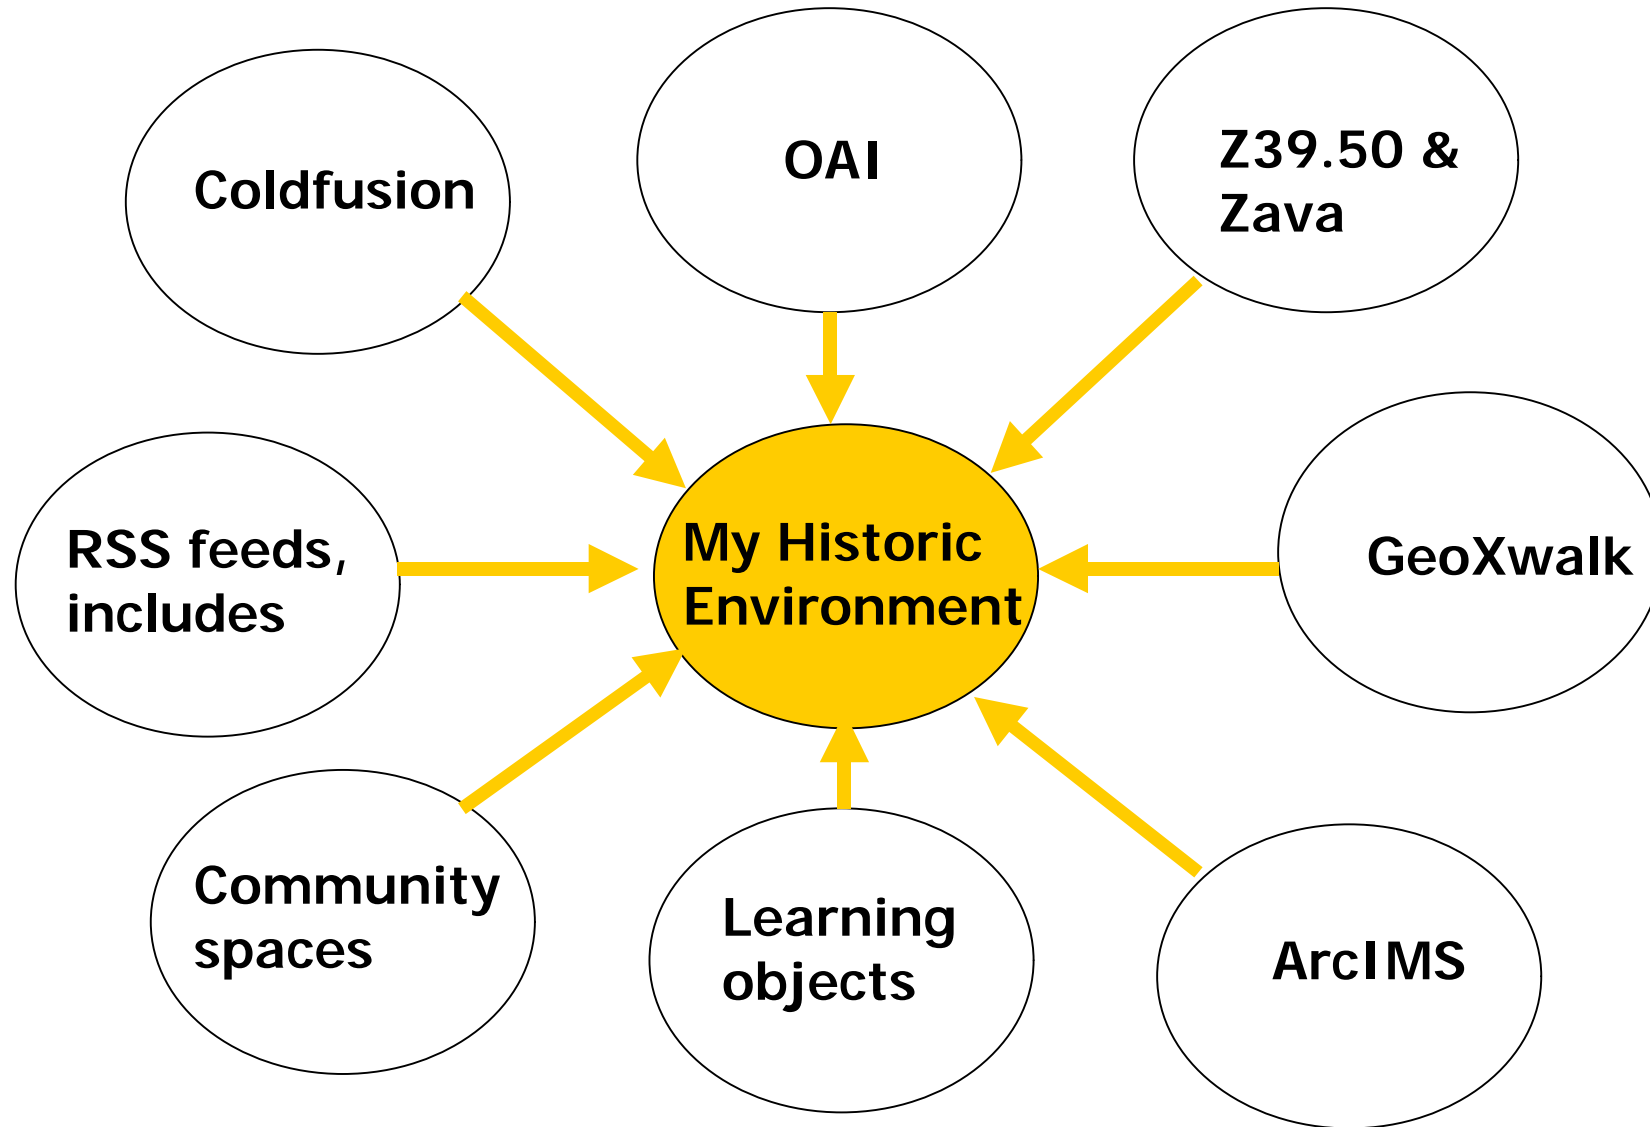

Support for uses of information

But what is actually happening?

**Information environment**

# Technologies

# My Historic Environment

- A common point of access
- Accesses many independent data sources
- Based on open standards
  - communication protocols
  - content and terminology standards
  - geo-spatial data
- Middleware

The technology is invisible to users
